

## *Cambridge Scholars Program*

Each summer, Scholar Development partners with Arts and Sciences Outreach to offer broadly engaging general education courses and unique learning experiences led by exceptional faculty for ambitious, adventurous OSU students **in any major.**

### 2019 | Course Description

Imagine living in a country where every citizen is guaranteed the right to free health care services. For citizens of the United Kingdom this is the reality of the universal health care coverage provided by the National Health Service. Conversely, health care services are not guaranteed for all citizens of the United States, making the U.S. the only industrialized country that does not offer universal health care to its population. This comparative course sets out to provide an overview of both the UK and US health care systems and the associated health outcomes of their populations.

# 2019 Cambridge Scholars Program Application

## Course Description

Imagine living in a country where every citizen is guaranteed the right to free health care services. For citizens of the United Kingdom this is the reality of the universal health care coverage provided by the National Health Service. Conversely, health care services are not guaranteed for all citizens of the United States, making the U.S. the only industrialized country that does not offer universal health care to its population. This comparative course sets out to provide an overview of both the U.K. and U.S. health care systems and the associated health outcomes of their populations. Further, the status, function, and outcomes of public health will be analyzed within each system. Course content includes major elements of each health care system considering current health policies in historical and political contexts. Such discussions are particularly timely as the U.K. faces challenges created by BREXIT and the U.S. encounters amendments to the Affordable Care Act.

We will take advantage of our location in Cambridge by embarking on course-related excursions to the Whipple Museum of the History of Science, as well as two days in London where we will visit the Royal London Hospital Museum and Bethlem Museum of the Mind. Additionally, a tour of the Houses of Parliament will set the foundation for our discussions regarding the politically charged climate surrounding health care reform in the U.K. as citizens prepare for regulatory changes due to BREXIT.

## Costs and Scholarships

The actual program fee is \$3600, however, all students accepted who participate in the course will receive substantial scholarship support (\$1500) bringing the cost down to \$2100. Further, the OSU Office of Study Abroad and Arts and Sciences Outreach have additional scholarships available. The cost *includes* three OSU credit hours, single room and board (with free breakfast and lunch daily), a formal dinner, guest lecturers, course-related excursions, and travel insurance. Items are subject to change.

The cost *excludes* airfare and other travel expenses to Cambridge, miscellaneous personal expenses, additional meals, and any costs associated with travel after the course. Scholarship support is made possible by the Lew Wentz Foundation and the Henry Bellmon Office of Scholar Development and Undergraduate Research. Tuition and applicable program fees, along with the scholarship support you receive, will appear on your Bursar account at the beginning of the fall semester (August 2019) with the exception of a \$200 deposit billed at time of registration. This course is not eligible for OSU tuition waivers. Note: May 1, 2019 is the deadline to drop this course with no penalty. After that date, you will be responsible for all course costs, even though it will not appear on your Bursar account until August.

This is a statement of interest and application form, not an official OSU registration form. Completion and submission of this form will allow you only to be considered for acceptance to the program.

Name:	Current Classification:	
Street address:		
City:	State:	Zip:
Email:	Phone:	
Major(s):	GPA:	

To Apply:

1. All students must **submit this form** to Arts and Sciences Outreach (**213 Life Sciences East**) with an **official transcript**.
2. Attach to this form:
  - a. **Essay** (500 words max.) on **"The reason for my interest in taking this course in Cambridge, what I can contribute and how I expect to benefit from the experience."**
  - b. **Letter of Recommendation** from an OSU faculty member or advisor supporting your application.
  - c. **Optional: Statement of Financial Need** (400 words max.) **listing all current scholarships**.

Note: An additional \$500 in scholarship support may be available to students with exceptional need.

I confirm the accuracy of this information and wish to apply for this course.
