## Request for Program Modification

### Oklahoma State Regents for Higher Education

Institution submitting request: Click here to select your institution.

Contact person: Click here to enter text.

Title: Click here to enter text.

Phone number and email address: Click here to enter text.

Current title of degree program (Level II): Click here to enter text.

Current title of degree program (Level III): Click here to enter text.

State Regent's three-digit program code: Click here to enter text.

Degree Granting Academic Unit: Click here to enter text.

With approved options in: A. Click here to enter text.

B. Click here to enter text.

C. Click here to enter text.

D. Click here to enter text.

E. Click here to enter text.

**TYPE OF REQUEST:** Check all appropriate types of changes and complete ***ONLY*** the appropriate page(s). ***Excluding program deletions and suspensions, for modifications to be considered for State Regents' approval, the program must be current in the 5-year program review cycle.*** The Degree Program Review schedule can be found at <http://www.osrhe.edu/oeis/ProductivityReport/RevParams.aspx>

Date of last review for the program

- (1) Program Deletion
- (2) Program Suspension
- (3) Change of Program Name and/or Degree Designation
- (4) Option Addition
- (5) Option Deletion
- (6) Option Name Change
- (7) Program Requirement Change
- (8) Other Degree Program Modification
- (9) This modification affects a Cooperative Agreement Program

***Complete and return ONLY this cover sheet AND the appropriate page(s) specifying the requested modification!***

***NOTE: Information not included in the requested modification may cause a delay in processing.***

**Signature of President:** \_\_\_\_\_ **Date:** \_\_\_\_\_

**Date of Governing Board Approval:** Click here to enter a date.

## Evaluation Criteria

All actions in the approval of new programs for public institutions are subject to a stipulation regarding the program's ability to attain specified goals that have been established by the institution and approved by the State Regents. At the conclusion of an appropriate period of time, the program's performance shall be reviewed on the basis of the specified goals in a manner mutually satisfactory to the sponsoring institution and the State Regents. Final endorsement of the program will depend on demonstrated viability.

### A. Centrality of the Proposed Program to the Institution's Mission and Approved Function(s)

A program should adhere to the role and scope of the institution as set forth in its mission statement and as complemented by the institution's academic plan. List the objectives of the proposed program and explain how the proposed program relates to the institutional mission, academic plan, and approved function(s). An evaluation will be made as to the centrality of the program to the institution's mission. There are certain circumstances when institutions may request approval to offer programs outside their function as stated in the *Functions of Public Institutions* policy. However, budget constraints, system efficiency, and concerns about institutional capacity and priorities may further limit expansion of programmatic functions. Requests of this nature should be on a limited basis. (*Institution's response/rationale should follow each criteria, A through I of this policy;*

*Institutions requesting programs outside their approved programmatic function should contact Dr. Debbie Blanke (405-225-9145) or Dr. Stephanie Beauchamp (405-225-9399) for additional information and forms.*

[Click here to enter text.](#)

### B. Curriculum

The curriculum should be structured to meet the stated objectives of the program. Explain how the curriculum achieves the objectives of the program by describing the relationship between the overall curriculum or the major curricular components and the program objectives.

[Click here to enter text.](#)

#### **For undergraduate degree programs only**

As part of the broader work of the Mathematics Success Initiative, the Math Pathways Task Force has identified four gateway mathematics courses that are suitable general education mathematics course options. These courses, *College Algebra/Pre-Calculus*, *Introduction to Statistics*, *Functions and Modeling*, and *Quantitative Reasoning*, are included on the Course Equivalency Project transfer matrix and provide rigorous mathematical content that is more relevant and appropriate for specific academic majors.

If the proposed program requires a general education mathematics course, please complete the following questions:

1. Which mathematics course is required as part of the general education requirements? If the program allows for multiple gateway mathematics course options, provide a rationale for each.  
[Click here to enter text.](#)
2. Describe how the mathematics course was selected and how it best meets the needs of the program's students. [Click here to enter text.](#)
3. How does this mathematics course articulate with your partner institutions? [Click here to enter text.](#)

(For more information regarding the gateway mathematics courses, please contact Dr. Rachel Bates (405) 225-9168)

The proposed program must meet the State Regents' minimum curricular standards including the total credit hour requirements for program completion, liberal arts and sciences, general education, and area of specialization credit hour requirements (refer to State Regents' Policy 3.15 Undergraduate Degree Requirements). Additionally, the curriculum should be compatible with accreditation or certification standards, where available. Any clinical, practicum, field work, thesis, or dissertation requirements should be included in the proposal.

Provide the following information for the program and for each option (some categories may not apply to all programs):

**For Master's and Doctorate Degrees:**

Total number of hours required for degree:

Number of hours in program core:

Number of hours in option (if applicable):

Number of hours in thesis/dissertation/project:

Number of hours in electives (if applicable):

**For Bachelor's and AA/AS Degrees:**

Total number of hours required for degree:

Number of hours in general education:

Number of hours in major:

Number of hours in degree program core (if applicable):

Number of hours in option (if applicable):

Number of hours in guided electives (if applicable):

Number of hours in general electives (if applicable):

**For AAS Degrees:**

Total number of hours required for degree:

Number of hours in general education:

Number of hours in technical specialty:

Number of hours in technical support courses (if applicable):

Number of hours in technical related coursework (if applicable):

Describe how the proposed program will articulate with related programs in the state. It should describe the extent to which student transfer has been explored and coordinated with other institutions.

Click here to enter text.

**Specific curricular information.** List courses (prefix, course number, and course title) under the appropriate curricular headings (i.e. General Education, Program Core) and asterisk new courses. In the curriculum description, indicate the total number of new courses and how development will be funded. If a course has a prerequisite, list the prerequisite courses in parentheses. NOTE: All prerequisite courses must be included as part of the degree requirements. **For undergraduate degrees, specific General Education requirements must be included.**

Click here to enter text.

### **C. Academic Standards**

Clearly state the admission, retention, and graduation standards which, must be equal to or higher than the State Regents' policy requirements, and should be designed to encourage high quality.

Click here to enter text.

### **D. Faculty**

Faculty resources shall be demonstrated to be adequate and appropriate for the proposed program. The number of faculty will meet external standards where appropriate. The qualifications of faculty will support the objectives and curriculum of the proposed program. Faculty qualifications, such as educational background, non-collegiate and collegiate experience, and research and service interests and contributions, which relate to the proposed program, should be summarized. The institution must demonstrate that core programmatic faculty possess the academic and research credentials appropriate to support the program. Attach faculty vita or provide explicit summaries.

Click here to enter text.

### **E. Support Resources**

Access to the qualitative and quantitative library resources must be appropriate for the proposed program and should meet recognized standards for study at a particular level or in a particular field where such standards are available. Books, periodicals, microfilms, microfiche, monographs, and other collections shall be sufficient in number, quality, and currency to serve the program. Adequacy of electronic access, library facilities, and human resources to service the proposed program in terms of students and faculty will be considered.

Physical facilities and instructional equipment must be adequate to support a high quality program. The proposal must address the availability of classroom, laboratory, and office space as well as any equipment needs. Describe all resources available.

Click here to enter text.

### **F. Demand for the Program**

Proposed programs must respond to the needs of the larger economic and social environment. Thus, the institution must demonstrate demand for the proposed program.

1. Student Demand: Clearly describe all evidence of student demand, normally in the form of surveys of potential students and/or enrollments in related programs at the institution, which should be adequate to expect a reasonable level of productivity.

Click here to enter text.

2. Employer Demand: Clearly describe all evidence of sufficient employer demand, especially in the five workforce ecosystems developed by the State Department of Commerce that includes aerospace and defense, energy, agriculture and biosciences, information and financial services, and transportation and distribution. This demand can be demonstrated in the form of anticipated openings in an appropriate service area and in relation to existing production of graduates for the institution's service area and/or state. Such evidence may include employer surveys, current labor market analyses, and future manpower projections.

The following websites may provide useful information: [https://www.ok.gov/oesc/Labor\\_Market/Industry\\_and\\_Occupational\\_Employment\\_Projections/](https://www.ok.gov/oesc/Labor_Market/Industry_and_Occupational_Employment_Projections/) and <https://www.okhighered.org/econ-dev/dashboards/>) Where appropriate, evidence should demonstrate employers' preferences for graduates of the proposed program over persons having alternative existing credentials and employers' willingness to pay higher salaries to graduates of the proposed program.

Click here to enter text.

### Estimated Student Demand for the Program

Project estimated student demand for the **first five years** of the program.

Academic Year	Degrees Conferred	Majors (Headcount) Fall Semester
		(i.e. Fall 2021)

Programs are provisionally approved and given enough time for a planning year plus the number of years necessary to produce one graduating class (i.e. a two-year program is allowed three years to meet its graduates and majors goals, a four-year program is allowed five years, etc.) unless the institution makes a specific timeframe request with a strong rationale.

*Using the above estimated student demand, please indicate the specific productivity criteria and timeframe for final review of the program:*

<p>This program will enroll a minimum of _____ students in fall _____ year); and will graduate a minimum of _____ students in _____ academic year).</p> <p><i>(NOTE: Productivity data must come from the same academic year. Example: enroll a minimum of <u>50</u> students in <u>fall 2025</u> and graduate a minimum of <u>35</u> students in <u>2025-2026</u>)</i></p>
---

### Electronic Delivery

Is this program intended to be offered through online delivery or other computer-mediated format or will be advertised as available through online delivery or other computer-mediated format?

Yes  No

If yes, describe the delivery method that will be used to deliver the program content (e.g., Blackboard, Desire2Learn, etc.) and the major features that will facilitate learning.

Click here to enter text.

Does your institution have prior Electronic Delivered Program approval?

Yes  No

**Note: If requesting institution has not gone through the electronic delivery approval process, you must also complete the Institutional Request for Electronic Delivery Approval section beginning on page 9 of this form.**

### **G. Unnecessary Duplication**

The elimination of unnecessary program duplication is a high priority of the State Regents. Where other similar programs may serve the same potential student population, the proposed program must be sufficiently different from existing programs or access to existing programs must be sufficiently limited to warrant initiation of a new program.

Provide specific evidence that the proposed program is not unnecessarily duplicative of similar offerings at other state system institutions.

[Click here to enter text.](#)

Have you explored opportunities to collaborate in dual, joint, or consortial programs?

Yes

**If yes, explain and, if applicable, attach Memorandum of Understanding and all appropriate documents regarding the dual, joint, or consortial degree plan.**

[Click here to enter text.](#)

No

If no, explain

[Click here to enter text.](#)

### **H. Cost and Funding of the Proposed Program**

The resource requirements and planned sources of funding of the proposed program must be detailed in order to assess the adequacy of the resources to support a quality program. This assessment is to ensure that the program will be efficient in its resource utilization and to assess the impact of this proposed program on the institution's overall need for funds.

Provide evidence of adequate funding, which will include, but not be limited to:

1. **Reallocation of Existing Resources:** The institution must provide evidence of campus funds to be reallocated to the proposed program. The source and process of reallocation must be specifically detailed. An analysis of the impact of the reduction on existing programs and/or organization units must be presented.

[Click here to enter text.](#)

2. **Tuition and Fees:** The institution must provide evidence of a projected increase in total student enrollments to the campus as a result of the proposed program.

Click here to enter text.

3. Discontinuance or Downsizing of an Existing Program or Organizational Unit: The institution must provide adequate documentation to demonstrate sufficient savings to the state to offset new costs and justify approval for the proposed program.

Click here to enter text.

### Cost/Funding Explanation

Complete the following table for the first five years of the proposed program and provide an explanation of how the institution will sustain funding needs for the life of the proposed program in the absence of additional funds from the State Regents. \*The total funding and expenses in the table should be the same, or explain sources(s) of additional funding for the proposed program. *(NOTE: Each funding and/or expense amount provided must include an explanation regarding the source of the funds or how the funds will be utilized.)*

### Cost/Funding Summary:

### I. Program Review and Assessment

Describe program evaluation procedures for the proposed program. These procedures may include evaluation of courses and faculty by students, administrators, and departmental personnel as appropriate. Plans to implement program review and program outcomes-level student assessment requirements as established by State Regents' policies should be detailed. Program review procedures shall include standards and guidelines

for the assessment of student outcomes implied by the program objectives and consistent with the institutional mission.

[Click here to enter text.](#)

### **Other documents required for dual or joint degree requests**

If requesting a dual or joint degree, attach the New Joint or Dual Program Request cover page.

---

---

## **INSTITUTIONAL REQUEST FOR ELECTRONIC DELIVERY**

**NOTE: Institutions that have completed the electronic delivery approval process and have been approved to offer electronically delivered programs have already provided the information requested in this section; and therefore, are not required to complete this section. If requesting institution has not completed the electronic delivery approval process must complete all sections on pages 9 – 11 of this form. If you have any questions contact Dr. Stephanie Beauchamp (405-225-9399).**

### **Program Approval Procedures for New Online Programs**

Institutions that have not been approved previously to offer online programs are required to request approval as follows: (1) if programs are offered in such a manner that an individual student can take 100 percent of the courses for the major through online delivery or other computer-mediated format; or (2) the program is advertised as available through online delivery or other computer-mediated format. For the purpose of this policy, major is defined as courses in the discipline of the student's declared degree program, excluding support courses, general education courses, and elective courses. Criteria for approval are based on qualitative consideration and the compatibility of the requested offering with the institution's mission and capacity and meeting the required academic standards.

#### **3.16.5 Academic Standards**

The expectation is that there is no difference in the academic quality, academic standards including admission and retention standards, and student evaluation standards for courses and programs regardless of delivery method. Electronic media courses and programs must meet the following academic standards.

**A. Faculty.** Describe the training and faculty development that the faculty receives to achieve competency in the technology required for teaching at a distance.

[Click here to enter text.](#)

**B. Faculty/Student Interaction.** Describe the provisions for appropriate real-time and delayed interaction between faculty and students and among other students enrolled in the class.

[Click here to enter text.](#)

**C. Academic Integrity.** Describe methods that are in place for ensuring academic integrity.

[Click here to enter text.](#)

**D. Student Confidentiality.** Describe methods that are in place to ensure the confidentiality and privacy of student personal data.

[Click here to enter text.](#)

**E. Identify Verification.** Institutions shall have an appropriate method to verify the identity of students taking distance education courses.

[Click here to enter text.](#)

**F. Advertising.** The institution must provide adequate and accurate information to students including but not limited to admission requirements, equipment standards, estimated or average program cost, and other services available. What methods are employed to ensure adequate and accurate information?

[Click here to enter text.](#)

**G. Learning Resources.** Students shall have access to facilities and learning materials on essentially the same basis as students in the same program or course taught at the main campus. Describe the resources that are available to distance learning students.

[Click here to enter text.](#)

**H. Academic Calendar Requirements.** The standards observed relating to the number of course meetings and total time spent in the course or in satisfying the course requirements shall be comparable to those observed on the main campus. An exception to course meeting time is allowed as defined in the Competency-Based Learning (CBL) section in the State Regents' Academic Calendars policy. Institutions utilizing this exception must have documented and validated methods for students to demonstrate competencies, student assessment, and awarding academic credit as required by the CBL section.

[Click here to enter text.](#)

**I. Admission, Retention, Assessment.** Describe the standards used for online student admission, retention, and assessment. Standards shall be the same as those standards observed for the same courses or programs on the originating campus. Similarly, the applicable concurrent enrollment policies apply (see the State Regents' Institutional Admission and Retention and Assessment policies).

[Click here to enter text.](#)

**J. Student Services.** Students shall have access to program guidance and academic support services, including admissions, enrollment, academic advisement, financial aid, and related services on the same basis as the students located on the main campus. Online programs must make these services available to students in electronic format using the working assumption that these students will not be physically present on campus.

[Click here to enter text.](#)

**K. Technical Support System.** Students in electronic media off-campus courses or programs and faculty shall have access to appropriate technical support services. Describe the technical support system that is available for all hardware, software and delivery systems specified by the institution as required for the courses and program.

[Click here to enter text.](#)

**L. Equipment and Software/Tools.** Students must be informed in clear and understandable terms of the electronic or computer resources necessary for successful completion of the class, including, but not limited to, word processing and other productivity tools, e-mail, and Internet services.

Click here to enter text.
